

Take control of your waste!

Agritel supplies crushing and compacting machines for a wide variety of waste material, including plastic, cardboard, glass, cans, drums and oil filters. Compacted waste is easier to handle, cheaper to store and transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Agri-mac machines offer the potential for increased efficiency and cost-effective, environmentally-responsible waste disposal.

Contact our friendly and knowledgeable staff to find out how an Agri-mac machine can benefit your business.

Agri-mac BC05

Agri-mac BC06

Agri-mac Bottle Crusher

The Agri-mac Bottle Crusher reduces glass to cullet size as required by recyclers, with an impressive throughput of more than 2 tonnes per hour.

It is available in two configurations: the BC05 with side-facing loading hopper, and BC06 with front-facing hopper. A compact footprint, castor mounting and standard single-phase electrics make it easy to locate the machine wherever it's needed, minimising handling of bulky waste glass.

Safety features include anti-kickback flaps to isolate both feed and crusher chambers, and a built-in extraction system.

- Saves time and space
- Reduces storage, handling and disposal costs
- Volume feed or one bottle at a time
- Heavy-duty construction and user-friendly controls for trouble-free operation
- Mounted on castors for easy moving
- Anti-kickback flaps isolate feed and crusher chambers
- Built-in extraction system
- Three-year warranty
