

Take control of your waste!

Agritel supplies crushing and compacting machines for a wide variety of waste material, including plastic, cardboard, glass, cans, drums and oil filters. Compacted waste is easier to handle, cheaper to store and transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Agri-mac machines offer the potential for increased efficiency and cost-effective, environmentally-responsible waste disposal.

Agri-mac Hydraulic Can Crushers

Agri-mac Hydraulic Can Crushers make light work of compacting waste metal drums to a fraction of their original size. Two versions are available: the SB4 is ideal for one large or several smaller cans, while the SB5 has a larger compacting chamber, greater piston thrust and is suitable for cans with bigger dimensions.

Both the SB4 and SB5 will handle cans of up to 30 litres capacity. For larger drums, see the Agri-mac DC10 Drum Crusher.

- Handles cans up to 30 litre capacity
- Drain point for easy removal of waste liquid
- Heavy-duty construction and user-friendly controls for trouble-free operation
- Small footprint
- Single or 3-phase operation
