

Crush the cost of waste disposal

Agritel supplies crushing and compacting machines for a wide variety of waste material, including plastic, cardboard, glass bottles, cans, drums and oil filters. Compacted waste is easier to handle, cheaper to store and transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Agri-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.

Agri-mac DC10 Drum Crusher

A heavy-duty machine with a compaction ratio of 6:1, the Agri-mac DC10 Drum Crusher is the ideal solution for cost-effective disposal of large quantities of metal drums. It handles drums of up to 205 litres (40 gallons) capacity.

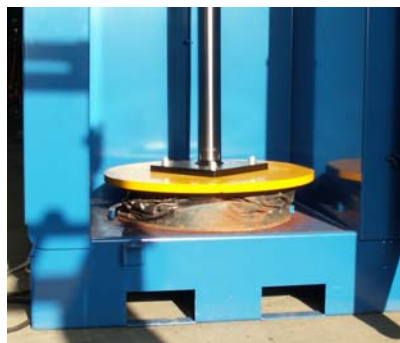

- Up to 24 tonne press force
- Totally enclosed shell for safe operation
- Clear controls for ease of use
- 30 litre oil collection tray with tap connection

Agri-mac DC10 Drum Crusher in action

A sequence of shots demonstrating how effectively the DC10 Drum Crusher reduces drums to a fraction of their former size. We took a standard 205 litre drum, measuring 88cm high, and crushed it to just 15cm.

The entire operation, including loading and unloading, took less than one minute.

TECHNICAL SPECIFICATION

	Agri-mac DC10 Drum Crusher
Compaction ratio	6:1
Cycle time	40 seconds
Machine weight	690 kg
Power supply	3 phase 400V
Dimensions (HxWxD)	2520 x 1190 x 1000 mm
