

# Take control of your waste!

Agritel supplies crushing and compacting machines for a wide variety of waste material, including plastic, cardboard, glass, cans, drums and oil filters. Compacted waste is easier to handle, cheaper to store and transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Agri-mac machines offer the potential for increased efficiency and cost-effective, environmentally-responsible waste disposal.

Contact our friendly and knowledgeable staff to find out how an Agri-mac machine can benefit your business.

## Agri-mac GJK121 Glass Bottle Crusher

**The Agri-mac GJK121 Bottle Crusher quickly and safely reduces glass bottles to less than one fifth of their original volume.**

The smashed glass – cullet - is accepted by recyclers and the reduced volume makes handling, storage and disposal far cheaper.

The GJK121 has a front-facing loading chute and an impressive throughput of up to 80 bottles per minute. Cullet is collected in a wheeled bin that holds approximately 800 smashed bottles.

A compact footprint and standard single-phase electrics make it easy to locate the machine wherever it's needed, minimising handling of bulky waste glass.

The GJK121 is CE certified and safety features include anti-kickback flaps and bolt-down points.

- Safe and easy to use
- Improves efficiency
- Promotes recycling
- Helps achieve green business awards
- 5:1 volume reduction
- Fewer uplifts
- Reduces storage, handling and disposal costs
- **Saves space, time and money!**

| TECHNICAL SPECIFICATIONS |  |
