

Take control of your waste!

Convert waste packaging materials such as cardboard, plastic and paper into dense, space-saving bales: easier to handle and less costly to transport.

Agri-mac Horizontal Balers H20, H40, H50

Agri-mac horizontal balers are ideal for baling large quantities of materials such as paper, cardboard and plastics.

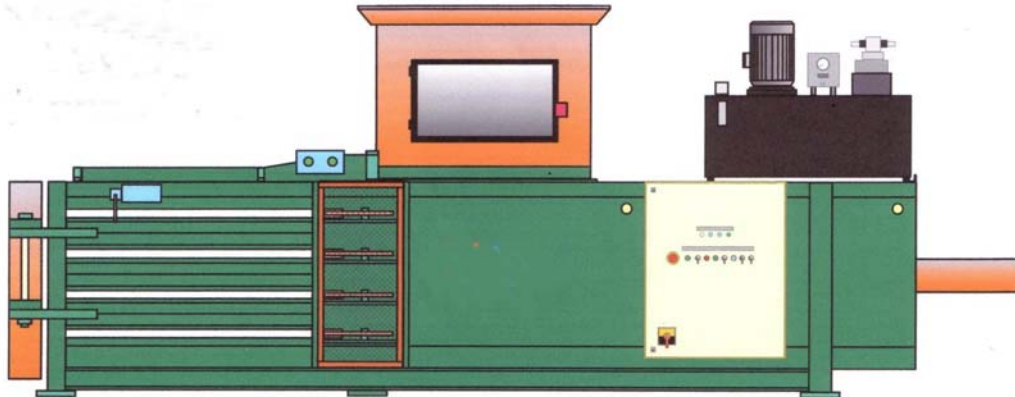

Excellent build quality ensures reliable operation over many years. Supplied with a feed hopper for loading with a mechanical conveyor. All Agri-mac horizontal balers are fully compliant with EC machinery safety standards.

Features

- Fully-automatic baling cycle
- Wire tying
- High-efficiency low-noise hydraulic power pack
- Self-aligning ram for reliability in service
- No special foundations required; low headroom

Options

- Manual loading door
- Long stroke ram
- Alternate baling speeds
- Floor-mounted power pack
- Special feed hoppers
- Mechanical feed conveyors
- Shredding machinery

High-capacity waste handling

Convert high volumes of waste packaging materials such as cardboard, plastic and paper into space-saving bales: easier to handle and less costly to transport.

Agri-mac Automatic Horizontal Balers

With throughput of up to 5 tonnes per hour, Agri-mac automatic horizontal balers are ideal for high capacity baling of a range of materials including paper, cardboard and plastics.

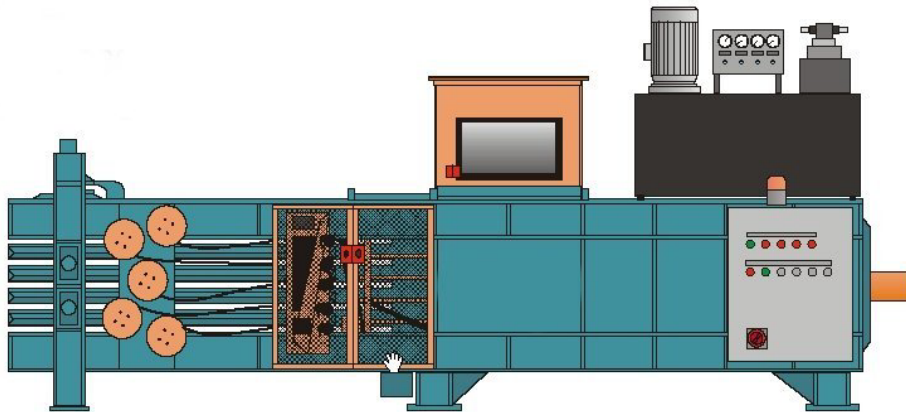

Excellent build quality ensures reliable operation over many years. Supplied as standard with a feed hopper for loading with a mechanical conveyor.

Features

- Fully automatic baling cycle
- Fully automatic wire tying of bales
- High-efficiency low-noise hydraulic power pack
- Self-aligning ram for reliability in service
- No special foundations required

Options

- Mechanical conveyors
- Alternate baling speeds
- Special feed hoppers
- Material rufflers
- Pre-compression flap
- Shredding machinery
