

Take control of your waste!

Agritel supplies crushing and compacting machines for a wide variety of waste material, including plastic, cardboard, glass, cans, drums and oil filters. Compacted waste is easier to handle, cheaper to store and transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Agri-mac machines offer the potential to dramatically cut the cost of waste disposal *and* to improve your business's recycling credentials.

Contact our friendly and knowledgeable staff to find out how an Agri-mac machine can benefit your business.

Agri-mac Hydraulic Can Crushers

Agri-mac Hydraulic Can Crushers make light work of compacting waste cans to a fraction of their original size – with a corresponding reduction in the cost of disposal!

Two versions are available: the MG3 with a 3.5 tonne press force, and the MG5 with a superior 5 tonne press force.

Both the MG3 and MG5 will handle cans of up to 30 litres capacity. For larger drums, see the Agri-mac DC10 Drum Crusher.

- Suitable for cans up to 30 litres' capacity
- Crushes one large or several small cans at a time
- Drain point for easy removal of waste liquid
- Heavy-duty construction and user-friendly controls for trouble-free operation
- Small footprint
- Single phase operation
