

Take control of your waste!

Agritel supplies crushing and baling machines for a wide variety of waste material. Compacted waste is easier to handle, cheaper to transport, and widely accepted by recyclers.

Used as part of a simple waste management regime, Ag-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.

Ag-mac DC10 Drum Crusher

A heavy-duty machine with a compaction ratio of 6:1, the Ag-mac DC10 is the ideal solution for cost-effective disposal of large quantities of waste metal drums.

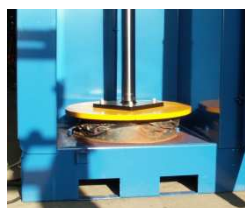

Drums are crushed neatly, within their original footprint, allowing them to be stacked or stored efficiently awaiting disposal.

Features

- Crushes individual drums up to 205 litres (40 gallons) capacity or several smaller drums at once
- Compacts drums down to one sixth of their original height
- Totally enclosed chamber for safe operation
- 30-litre waste liquid collection tray with tap connection
- 12-month manufacturer's warranty

Optional Extras

- Galvanised finish
- Modified head for crushing waste material inside a drum

Quickly reduces drums to a fraction of their original size
A 205-litre drum is reduced from 88cm to just 15cm in under a minute!

Technical Specifications	Ag-mac DC10 Drum Crusher
Press force (max)	24 tonnes
Cycle time	40 seconds
Noise level	74 decibels
Power supply	11 kW 32A 380-400V
Machine weight	690kg
Dimensions (HxWxD)	2587 x 1190 x 1000mm
