

Take control of your waste!

Agritel supplies crushing and baling machines for a wide variety of waste material. Compacted waste is easier to handle, cheaper to transport, and widely accepted by recyclers.

Used as part of a simple waste management regime, Ag-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.

Contact our friendly and knowledgeable staff to find out how an Ag-mac machine can benefit your business!

Ag-mac MG5 Hydraulic Can Crusher

The Ag-mac MG5 Can Crusher makes light work of compacting waste cans to a fraction of their original size – with a corresponding reduction in the cost of disposal!

The MG5 has a 5 tonne press force and will handle cans of up to 30 litres' capacity, crushing either one large or several small cans at a time. Any residual liquid is ducted away via a drain point in the base of the crush chamber.

For larger drums, see the Ag-mac DC10 Drum Crusher.

Features

- Electro-hydraulic operation delivering 5 tonne press force
- Handles cans up to 30 litres' capacity
- Drain point for easy removal of waste liquid
- Safety interlocks prevent operation with door open
- Compact footprint
- Heavy-duty construction for long-term reliable performance
- 12-month manufacturer's warranty

Optional Extra

- 1.1kW 380V 3-phase power

Technical Specifications	Ag-mac MG5 Can Crusher
Press force (max)	5 tonnes
Chamber (HxWxD)	500 x 400 x 400mm
Loading aperture (HxW)	500 x 340mm
Cycle time	20 seconds
Power supply	1.5kW 230V
Machine weight	160kg
Dimensions (HxWxD)	2000 x 550 x 700mm
