

Take control of your waste!

Agritel supplies crushing and baling machines for a wide variety of waste material. Baled waste is easier to handle, cheaper to transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Ag-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.

Contact our friendly and knowledgeable staff to find out how an Ag-mac machine can benefit your business!

Ag-mac OFC10 Oil Filter Crusher

The Ag-mac OFC10 crushes used oil filters to just one fifth of their original size, minimising storage and disposal costs.

With a 6 tonne press force, it will comfortably crush filters from cars, vans and commercial vehicles and will also handle cans of up to 30 litres' capacity.

The OFC10's compact design and clean operation mean that it can be conveniently sited wherever it's needed; it is ideal for use in busy vehicle repair and service shops where space may be limited but efficiency is paramount.

Features

- Electro-hydraulic operation delivering 6 tonne press force
- Safe and quiet to use
- Heavy-duty construction and user-friendly controls
- Disposal bin can be located beneath machine, minimising handling
- Oil collection tray and removal system
- 12-month manufacturer's warranty

Benefits

- **5:1 compaction ratio – reduces volume by as much as 80%**
- **Saves time and space**
- **Reduces storage, handling and disposal costs**
- **Waste oil can be collected for recycling or disposal**

Crushed filter

Technical Specifications	Ag-mac OFC10 Oil Filter Crusher
Press force (max)	6 tonnes
Crush chamber (HxWxD)	455 x 300 x 300mm
Loading aperture (HxW)	455 x 300mm
Cycle time	20 seconds
Noise level	74 decibels
Machine weight	110kg
Power supply	220V Single-phase
Dimensions (HxWxD)	1700 x 700 x 450mm
