

Professional Pallet Wrapping

Switching from hand to machine wrapping brings many benefits for large- and small- volume shippers alike.

Automated pallet wrappers make light work of a back breaking task. Health and safety risks are minimised, and packing-room staff are released for more productive work.

Contact our friendly and knowledgeable staff to find out how an OneWrap machine can benefit your business!

OneWrap Semi-Automatic Pallet Stretch Wrapper

The versatile solution for most common pallet wrapping needs. OneWrap is a semi-automatic machine for wrapping palletised loads with stretch film.

Available with a mechanical brake or powered pre-stretch. A compact footprint and standard single-phase electrics make it easy to locate the machine wherever it's needed for the efficient wrapping of pallets.

Features

- Can be programmed with 10 different programs, allowing for consistent wrapping cycle for a given product.
- 5 different modes of operation:
 - Automatic **Up Only & Up & Down**
 - Automatic **Up Only & Up & Down with pause for top sheet**
 - Manual Mode

Benefits

- **Saves time and space**
- **Presentation is improved: pallets wrapped consistently**
- **Reduction in amount of wrap used.**
